

National Guard Association of Washington

2023 Industry Day

Thank you so much for joining NGAW for our 2032 Industry Day! This event is an opportunity for our state military leaders to connect with the businesses in our community who invest in the mission and goals of our forces. This partnership fosters strong bonds with the local and national businesses who provide equipment, education, technology, and benefits for our Army and Air Guard members.

The National Guard Association of Washington is a non-profit professional association that exists to support every member of the Washington Guard--Soldiers and Airmen, Officers and Enlisted, families and civilian employers. Our purpose is to advocate for the most effective legislation to maximize Washington State military benefits and resources.

The National Guard Association of Washington serves as a voice to advocate for the Guard Family by providing a platform for action. As a non-profit organization, NGAW can lobby on behalf of our Guard members at both the state and federal levels. We also serve our Washington Soldiers and Airmen through a variety of programs, such as educational scholarships, state sponsored life insurance, and our 501(c)3 non-profit Foundation, which funds emergency assistance and several charitable activities throughout the year.

NGAW's Corporate Partners help support this mission, as well. These partnerships strengthen our influence on the legislation that affects the Guard, its members, and their families. We are so appreciative for all our Corporate Partners.
