

National Guard Association of Washington

2024 Industry Day

Through the following pages, please take the opportunity to explore the fantastic Corporate Partners who joined NGAW at our 2024 Industry Day and support us throughout the year! These businesses invest in the mission and goals of our Washington National Guard forces. They are the local and national businesses who provide equipment, education, technology, and benefits for our Army and Air Guard members.

The National Guard Association of Washington is a non-profit professional association that exists to support every member of the Washington Guard--Soldiers and Airmen, Officers and Enlisted, families and civilian employers. Our purpose is to advocate for the most effective legislation to maximize Washington State military benefits and resources.

NGAW serves as a voice to advocate for the Guard Family by providing a platform for action. As a non-profit organization, NGAW can lobby on behalf of our Guard members at both the state and federal levels. We also serve our Washington Soldiers and Airmen through a variety of programs, such as educational scholarships, state sponsored life insurance, and our 501(c)3 non-profit Foundation, which funds charitable activities and emergency assistance for our Guard members and their families.

NGAW's Corporate Partners help support this mission, as well. In addition to their financial support, our partnerships with their companies strengthen our influence on the legislation that affects the Guard, its members, and their families. We are so appreciative for all our Corporate Partners!

DripDrop

THE **FASTEST** WAY TO HYDRATE

DripDrop provides superior hydration that works faster and more effectively than water or the leading sports drinks. Our doctor-developed ORS science-based formula activates a hydration shortcut, accelerating fluid and electrolyte absorption.

And unlike other electrolyte drink mixes, it tastes great.

Trusted by those who need it most,
tried and tested by the US military.

My company had zero heat casualties.

This is the first time that has ever happened during a training foot march or training event. Biggest comment from my soldiers was the great taste.
